

High 5 Ubuntu Circle

ADVENTURE
LEARNING CENTER

The above image is broken into 12 pieces and shuffled out of sequence. The object of the activity is to work together to put the pieces back in the correct sequence.

Directions:

Print and cut out the 12 pieces of the Ubuntu puzzle below. *Laminating the individual pieces is recommended.*

Group Size: 12 participants

How to Play:

1. Shuffle the pieces before giving each participant a piece.
2. Ask them not to show their piece to anyone.
3. Explain that the cards are out of sequence and that the object is to put the cards back in the correct sequence.
4. Before beginning, remind participants that they may **not** show their card to anyone.
5. Once the activity begins participants may describe their card to other players.
6. When the group believes they have the cards in the correct sequence, they may line the cards up and check their work.

Variation:

Ask that every other play not speak during the activity.
