Practitioner Certification Testing Policies

High 5 Adventure Learning Center will offer reasonable and appropriate modifications to both our training and testing procedures to meet the needs of candidates with disabilities who are seeking certification training and testing.

Practitioners sitting for all levels of practitioner certification must pass the written portion of the exam with at least a 80% passing score.

Certification Test dates are scheduled separately from trainings. High 5 offers a number of open enrollment certification test dates throughout the year, and will provide on site customized testing when necessary.

Test results will be reviewed with the practitioner upon completion of the test.

Written tests and test scores will be maintained by High 5 Adventure Learning as permanent records

High 5 Certification Retesting Policy

High 5 Adventure Learning Center's Retesting Policy is as follows:

An individual may choose to retake a Level 1 or Level 2 High 5 Challenge Course Practitioner Certification Test

An individual's original application will remain valid if that individual chooses to retest within a six (6) month time period. If a candidate fails the written test they may choose to retake the written at a \$75.00 fee. If the candidate fails the practical test they will have to resubmit the testing fee of \$150.00 for a complete retest.

High 5 Adventure Learning Center will make an effort to accommodate individuals needing to retest, by arranging a custom retesting date if there are no upcoming High 5 scheduled Certification Testing dates.

If a person fails the written portion of the test, he/she may re-test for a fee of \$75.00. The

re-test must take place at High 5.
